

ROSARY YOGA

THE MANUAL

VERSION 1.0 | YEAR ONE

The body learns the cue.
The mind follows the bead.
The paper records the year.

CONTENTS

PROTOCOL AT A GLANCE one spread.

THE WEEK modality by day-of-week.

THE DECADE bead-phase load multipliers.

THE PENDANT seven onboarding weeks.

THE DICE TABLES one page per modality, plus modifiers.

THE BOSSES one page per Year-One encounter.

THE AF PT GRID scoring for the operator's bracket.

THE SANCTUM the Sunday close-out.

THE VIGIL the morning ritual (pending).

HOW TO USE THIS MANUAL

Carry it until the protocol is memorized. Consult it thereafter. The tabbed foredge lets the operator open to a section without reading the page numbers. Outdated versions are visibly outdated; reprint when the protocol changes.

PROTOCOL AT A GLANCE

THE THREE LAYERS

1. **The bead** fixes the load (phase + multiplier).
2. **The day** fixes the modality (Joyful / Sorrowful / Glorious / Luminous).
3. **The dice** rolls the specific exercise within the modality.

THE WEEK IN ONE LINE

MON mobility | TUE endurance | WED strength | THU skill | FRI endurance | SAT recovery | SUN Sanctum.

THE BEAD IN ONE LINE

intro → intro → build → deload → build → peak → peak → peak → taper → boss.

THE YEAR IN ONE LINE

pendant (7 wks) → 5 decades (10 wks each) → closing (1 wk). Total $\approx$ 62 beads.

WHAT THE DICE DO NOT TOUCH

- Modality. The day fixes that.
- Load. The bead fixes that.
- Boss schedule. The decade fixes that.

SUNDAYS

No work. Close the bead. Plan the next.

PROTOCOL AT A GLANCE / CONTINUED

DAY SHAPE

1. Open the app (or the Logbook). Read RELAY's morning header.
2. Roll the d6. Record the modifier (if any).
3. Vigil. Then the day's work.
4. Log scores. Close the day.
5. Evening: `practice.md` – the nightly rosary.

BOSS WEEK SHAPE

1. Pre-fight: bead 9 taper, then bead 10 conserve.
2. Fight day: protocol per Codex.
3. Score is the score. Log it.
4. Sanctum: RELAY writes the post-engagement entry.

THE WEEK

WEEK

Day	Mystery	Modality	Notes
Mon	Joyful	Mobility	Vigil + extended flow.
Tue	Sorrowful	Endurance	Run intervals. The grind.
Wed	Glorious	Strength	Heavier resistance. Lower reps.
Thu	Luminous	Skill	Technique. The ladder.
Fri	Sorrowful	Endurance	Calisthenics grinds. The carrying.
Sat	Joyful	Recovery	Walk. Breath. Light.
Sun	–	Sanctum	Rest. Logbook. Plan next bead.

Two endurance days, two mobility days, one strength, one skill. The lopsidedness is real and correct for the room.

THE DECADE

Bead	Phase	Load	Note
1	Intro	0.50	Patterning. Light.
2	Intro	0.60	Body remembers.
3	Build	0.70	Climbing.
4	Deload	0.50	The rosary breathes.
5	Build	0.80	Climbing again.
6	Peak	1.00	Full foundation load.
7	Peak	1.15	Highest sustained.
8	Peak	1.30	Highest of the decade.
9	Taper	1.10	Volume drops, intensity held.
10	Boss	N/A	The fight is the fight.

*The multiplier scales sets, reps, distance, or time – whatever the modality denominates.
See the dice tables for what scales.*

THE PENDANT

Seven weeks of onboarding. The body is being installed in the practice.

Bead	Name	What happens
0	Crucifix	Week zero. Read this. Set up the room. No work.
1	First Hail Mary	Vigil only, daily, 7 days.
2	Second Hail Mary	Vigil + a daily walk.
3	Third Hail Mary	+ 5 pushups, 5 situps, 5 wall-sits.
4	OF ₁ – Cross	First trial. 10 PU, 10 SU, quarter-mile walk.
5	Centerpiece – Mary	Mary’s codex transmitted this week.
6	OF ₂ – Threshold	Half AF PT test. Year One begins next bead.

The two pendant trials are not bosses – they are baselines, scored against nothing but themselves.

OF₁ – THE CROSS

- PU 10 reps, slow. Form over speed.
- SU 10 reps. Anchor the feet.
- Walk 1/4 mile, brisk pace. Not a run.
- Record Numbers go to Codex. No grade.

OF₂ – THE THRESHOLD

- PU to fatigue (1 min cap).
- SU to fatigue (1 min cap).
- Plank to fatigue.
- Run 1/2 mile. Sustainable pace.
- Record Numbers go to Codex. This is the baseline that Decade 1’s boss compares against.

The Threshold is not a fight. It is a measurement. Treat it as such.

DICE – JOYFUL (MOBILITY / RECOVERY)

d6	Variant	Description
1	Long flow	Vigil + 25 min slow flow. Hips, shoulders, spine.
2	Yin hold	Vigil + 5 yin poses, 3 min each.
3	Walk + breath	Vigil + 30 min walk, nasal breathing.
4	Mobility ladder	Vigil + joint-by-joint circuits (ankle to neck).
5	Restorative flow	Vigil + supine flow. Floor-only.
6	Operator’s choice	Any of the above. Whatever the body asks for.

SATURDAY RULE

On Joyful Saturday, halve any duration. Recovery is the goal.

BOSS-WEEK RULE

On Joyful days in a boss week, default to variant 5 (restorative). Conserve.

DICE – SORROWFUL (ENDURANCE)

d6	Variant	Description
1	400m repeats	8 x 400m at threshold pace, 90s rest.
2	800m repeats	5 x 800m at tempo pace, 2 min rest.
3	1.5-mile time trial	Single effort. Sustainable. Negative split last quarter.
4	Pushup ladder	1-2-3-...-N-...-3-2-1. Stop one short of failure.
5	Carry circuit	Farmer carry equivalent (no equipment: heavy bag, books).
6	AMRAP 20	10 PU + 10 SU + 10 squats; rounds in 20 min.

BEAD SCALING

Distance and reps multiply by the bead’s load multiplier (see Decade page).
On bead 8 (peak 1.30x), 8 x 400m becomes 10 x 400m.

DICE – GLORIOUS (STRENGTH)

d6	Variant	Description
1	Pullup progression	Dead hang → scapular pull → negative → rep.
2	Pistol-squat ladder	Assisted → box → full. 5 sets per leg.
3	Pushup variation	Archer / decline / diamond / tempo. 5 hard sets.
4	Plank complex	Front + side + side + reverse. 4 rounds, 45s each.
5	Wall-handstand work	Hold + shoulder taps + walks. 5 efforts.
6	Operator’s choice	A target the operator wants to push.

QUALITY RULE

Glorious is the only single-modality day of the week. If form breaks, stop the set. Quality over load. Always.

DICE – LUMINOUS (SKILL)

d6	Variant	Description
1	L-sit progression	Tuck → one-leg → full. Tabata format.
2	Handstand progression	Wall → chest-to-wall → free balance.
3	Pistol-squat technique	Box height descents. Tempo 3-1-3.
4	Pullup technique	Hollow body. Scap control. Half-reps to full.
5	Crow / arm balance	Frog → crow → side crow. Hold for time.
6	Free-form skill	Pick any skill. Practice it for 30 min.

TEMPO RULE

Luminous is slow. If the work feels fast, slow it down. The body is learning.

DICE – MODIFIERS

After the day’s modality is rolled, an optional second d6 may apply a modifier.

d6	Modifier	Effect
1	None	Run the day as written.
2	Eccentric tempo	3-second lowering on every rep. Lower volume.
3	Single-arm/leg	Unilateral where possible. Half the volume per side.
4	Paused reps	2-second pause at the hardest position.
5	Density block	Same work, set rest timer to 60s.
6	INSTINCT	Override. Listen to the body. Walk if needed.

HAUNT

On a natural “6” followed by another “6” (probability $\approx 2\%$), a beaten boss surfaces as a haunt. The operator may accept the re-fight or decline. Either is the protocol.

BOSS – BOSS_PENDANT_TRIAL (OF₂)

ANCHOR

Pendant – Threshold week.

FIGHT PROTOCOL

PU to fatigue. SU to fatigue. Plank to fatigue. 1/2 mile run. Score = (PU + SU) + plank seconds. Baseline only.

AF PT SCORING GRID / CONVERSIONS

PULLUP EQUIVALENCE (CODEX BOSSES)

Pullups	Equivalent
0-3	Assisted: 3 negatives = 1 equiv.
4-10	Direct count.
11+	Direct count, weighted reps may count as 1.5x.

PLANK SCORE BAND

Hold	Band

1:00 – 2:00	Pass
2:00 – 3:30	Good
3:30+	Excellent

These bands are an internal aid – they do not replace the official AF chart. Use them when the chart isn't to hand.

THE SANCTUM

WHAT IT IS

The Sunday close-out. The most ritualized moment in the practice outside of boss encounters. The operator does no work.

THE FOUR MOVES

1. **The week in numbers.** Days completed, dice rolled, scores against target, weight, sleep.
2. **The week in voice.** RELAY's post-bead transmission. Generated in app; transcribed by hand in the paper Logbook if used.
3. **The Sanctum note.** A single text field. A sentence, a paragraph, nothing. The operator's hand in the record.
4. **Close the bead.** Page-turn in the Logbook; primary button in the app. Commits the bead. Opens the next.

THE SANCTUM RULE

Sundays are not for work. Not catch-up. Not extra. If a day was missed, RELAY logs it and the week moves on. The bead does not advance until Sunday.

The Sanctum is the only place the operator is encouraged to linger.

THE VIGIL

WHAT IT IS

The morning warmup. Approximately ten minutes. Carpeted floor, no equipment, no impact.

WHAT IT MUST DO

- Prepare the body for the day's modality.
- Be memorizable in a week. Run without a sheet.
- Leave the body warm and present, not drained.
- Reset spine, hips, shoulders.

SPECIFICATION *PENDING*

Three candidates are under review:

1. Sun Salutation A (five rounds, step-back variant).
2. Joe DeFranco's Agile 8.
3. Original Strength RESETs.

The recommendation will be folded in here once the comparison returns. Until then, the operator may use any one of the three; consistency matters more than which.

COLOPHON

This Manual is typeset in LaTeX with Latin Modern at 10pt. It is printed on US Letter, duplex, two pages to a side, then folded in half and stapled through the spine with a long-arm stapler. Finished trim: 5.5 x 8.5".

Source lives at `paper/manual/manual.tex`. Edit, recompile, reprint. The Manual is meant to be reprinted whenever the protocol changes; outdated versions become visibly outdated by their version number on the cover.
